Gary Withers  
2323 Delmar  
Granite City, IL 62040

Dear Mr. Withers:

The United States Environmental Protection Agency (U.S. EPA) has sampled your yard located at 2323 Delmar in Granite City, Illinois for lead. The results of this sampling, which are enclosed with this letter, indicate that your yard contains less than 500 parts per million lead, the level which U.S. EPA considers protective of children's health at the NL Industries Superfund site in Granite City, Illinois. Thus, U.S. EPA will not need to perform soil cleanup activities in your yard.

If you have any questions concerning this letter or the enclosure, please contact me at (312) 886-4742 or 1-800-621-8431.

Sincerely,

A handwritten signature in cursive script that reads "Brad Bradley".

Brad Bradley  
Remedial Project Manager
